SUMMARY

- I am a Front End Developer with strong knowledge of **HTML, HTML5, CSS, CSS3, SASS, BOOTSTRAP, JAVASCRIPT**, and **JQUERY.**
- Efficient in creating **Responsive Websites** for **Desktop, Laptop, Mobile and Tab with the help of Media Query**.
- Expert in creating Responsive websites using **flexbox, float, Css Grid, Bootstrap Grid system.**
- All project layouts created by myself using **PHOTOSHOP** and also created all the project graphics, soft drinks packages.
- Able to work with a team and individually.

EDUCATION

- **Diploma in Visual Art** from Collage of Art & Design (Burdwan University).
- **B.A** Graduate from Kalna College (Burdwan University).
- I have completed an online **FRONT-END DEVELOPMENT** course from Hindi tech tutorial University.

WORK EXPERIENCE

- I have proper understanding of Css Box Model and css properties like margin, padding, positioning, flex-box, float, clear fix, z-index, before-after pseudo elements, overlay, animation key-frames etc.
- Create many responsive websites using **HTML, CSS, SASS, and BOOTSTRAP GRID SYSTEM.**
- Created image gallery with the help of Css grid system.
- Experience with GitHub.
- Create Css animation like '**text animation, hover effect on Images, buttons, zooming image.**

- **Create website with the help of Css preprocessor Sass- nesting-elements, partial $ import, mixin & include, operators, variables and other things.**
- Done **From validation** and **navigation bar** with the help of JavaScript for many websites.
- Use JavaScript library like **Owl carousel, scroll-reveal on scroll, and vanilla JS on Image gallery.**
- I have the expertise to use the pen tab.

SKILLS
